Contributions in cash from third parties may be considered co-financing if they are considered necessary or adequate. Grants awarded by the IOC must in no case represent more than 50\% of the cost of the co-financed activity;

- Grants must not have the purpose or effect of producing a profit for the beneficiary;

- Expenditure and revenue must be balanced in the budget presented. In the case of income, the co-financing requested from the IOC must not exceed the ceiling of 50\% of the costs presented;

- Expenditure incurred prior to the signature of the agreement is not eligible;

- Principles of advertising, transparency and equal treatment.

5-3/Award criteria

The award criteria will make it possible to evaluate the proposed activities from a technical and financial point of view. The IOC Executive Secretariat will use the following criteria and weighting for this purpose:
TECHNICAL QUALITY OF THE PROGRAMME: 40 points

Assessment will entail examining the extent to which the proposal is relevant to its objectives and target group and presents a solid method and precise indicators.

Assessors will usually ask themselves the following questions:

- Are the grant application and expected results clearly positioned in the celebration of World Olive Day?
- Is the proposal innovative?
- Are the objectives clear and realistic?
- Is the foreseeable impact on the approaches, target groups and systems concerned clearly defined and are measures in place to ensure that the impact can be achieved?
- Are the results of the activities likely to be significant?

MANAGEMENT QUALITY OF THE PROGRAMME: 35 points

The following elements will be considered in order to assess the management quality of the programme:

- The organisational capacity to achieve the objectives through the proposed activities within realistic timeframes;
- Organisational quality: extent of involvement of other organisations and balance between organisations; participation of third parties from the same country;
- The quality and scope of the outreach strategy.

Assessors will usually ask themselves the following questions:

- Is the organisation of work clear and appropriate for achieving the objectives?
- Does the work programme define and distribute tasks/activities among the partners in such a way that the results will be achieved on time and to budget?
- Does the applicant have all the skills, recognised expertise and competences required for carrying out all aspects of the work programme?
- Does the programme have a good communication strategy?
PRESENTATION OF AN OVERALL, DETAILED BUDGET: 25 points

The following elements will be taken into account to evaluate this point:
- Overall quality, clarity and degree of detail of the budget (see template appended in Annex 3).

- Adequacy and distribution of the resources (human and financial) allotted to each activity in order to assess the expected cost/benefit ratio.

- Please note that the cost of the staff assigned for the action, as described in article II, 14. 2, will be only admitted for the personnel exclusively hired for the action.

- The IOC ES will not take in charge any expense relating to coffee breaks, meals, dinners etc. ;

Assessors will normally ask themselves the following questions:
- Is the budget clearly detailed?
- What is the added value generated by the IOC grant (more participants, more speakers, more workshops, increased visibility through the printing of programmes, etc.)?

6/ Finalisation

Award
When awarding grants, the Executive Secretariat will give priority to geographical diversity to ensure that the largest possible number of IOC member countries (including those of the EU) are able to access funding.

In the event of being selected, the beneficiary automatically authorises the Executive Secretariat to publish the following information, in any form and through any communication channel, including Internet:

(a) Name and address of the beneficiary
(b) Purpose of the grant
(c) Amount granted and funding rate in relation to the total cost of the activity.

Notification of applicants
The Executive Secretariat will inform applicants individually, in writing, of the decision taken with regard to their proposal. The reason for the rejection of the application will be given at the end of the procedure.

Grant agreement
The Executive Secretariat reserves the right to award a grant that is lower than the amount requested by the applicant, but may not award a grant that is higher than that amount.
The grant will be governed by a grant agreement (template appended in Annex 4).

7/ Check list
Public-law or private-law persons whose headquarters are in the territory of one of the IOC Members and who apply for an IOC grant must make sure that their full dossier reaches the Executive Secretariat by April 16th, 2018 (inclusive) and is submitted via the Heads of Delegation of the member countries (contact details available upon request from the Executive Secretariat), except in the case of entities from EU countries, which should send their dossiers directly to the IOC.
The total amount available for grant funding in 2018 is limited owing to budget constraints. A maximum amount of €6 000 (per grant), subject to budget availability, has been fixed for IOC grant awards for the Celebration of World Olive Day, which may not represent more than 50% of the total budget for the action. Applications will be analysed on the basis of the best rated.

All grant agreements must have been signed before the activity begins.

Dossiers must contain at least the following:

- An official letter from the organisation responsible for the activity stating its name and full address. This letter must be signed by a duly authorised representative (person in charge of the establishment/body/activity) and, in the case of an institution not belonging to the EU, by the Head of Delegation of the IOC member country concerned;

- The application form (template appended in Annex 1), completed in full, signed and dated;

- The signed declarations attesting that the applicant is not in any of the situations giving rise to exclusion or conflict of interest (templates appended in Annex 2);

- The profit and loss statements and balance sheet for the last two financial years for which the accounts have been closed (in the case of public entities, this document may be substituted by a certificate attesting their status as a public entity);

- A completed and signed declaration attesting that the applicant is a legal person; (in the case of public entities, this document may be substituted by a certificate attesting their status as a public entity);

- A statement regarding the annual average staff and number of managerial staff employed by the applicant in the last two years;

- The list of persons – with job titles - who will be implementing the action, together with the CVs of the main persons in charge of the implementation of the activity, showing all their relevant professional experience (if the activities require the cooperation of outside experts on sensory analysis, these persons must be recognised IOC experts);

- A list of projects already undertaken in the relevant field by the applicant in the past two years; and detailed information regarding the estimated budget for the event (revenue and expenditure) (see template appended in Annex 3)
