- 3° Cooperativa de olivicultores de ValPacos, CRL- Valpacos - Portugal
(Tank n° 50 - Volume: 24,500 liters)

The 2024 edition of the **International Olive Council (IOC) Mario Solinas Quality Award (Northern Hemisphere)**, announced by the IOC in December 2023, received 113 oils: 1 from Algeria, 2 from China, 1 from Croatia, 1 from France, 2 from Greece, 4 from Italy, 3 from Jordan, 15 from Portugal, 57 from Spain, and 27 from Tunisia.

They were presented by individual producers, producer associations and packer companies.

In accordance with the competition rules published in December 2023, only oils from large-scale producers (batch volume $\geq 4,000$ liters) were classified according to the median and type of fruitiness.

The extra virgin olive oils presented were classified according to the following categories:

<u>Category</u>	<u>Median of fruitiness</u>	<u>Batch volume</u>
<u>Robust green fruitiness</u>	$Me > 6$	$\geq 4,000$ liters
<u>Medium green fruitiness</u>	$3 < Me \leq 6$	$\geq 4,000$ liters
<u>Delicate green fruitiness</u>	$Me < 3$	$\geq 4,000$ liters
<u>Ripe fruitiness</u>		$\geq 4,000$ liters
<u>Small-scale producers</u>		$\geq 1,000$ liters
<u>Packers</u>		$\geq 15,000$ liters

The members of this edition's International Jury evaluated all the oils submitted to the competition and chose the top six scoring oils for each category.

The International Jury proceeded to select the winners of the “2024 IOC Mario Solinas Quality Award – northern hemisphere” from among these oils in each category. Their evaluations were based on an evaluation sheet in which criteria such as olfactory, taste and retronasal sensations, as well as harmony, complexity and persistence, were scored out of 100. Additionally, they recommended to the IOC Executive Secretariat the oils eligible for the second and third prizes in each category.

No oils were selected for the second and third prizes from the extra virgin olive oils presented in the packer category.

In accordance with the competition rules, all participants may proceed to unseal the deposit of the batch of oil submitted.

The date and venue of the awards ceremony will be communicated in due time.
