According to Decision DEC-13/103-V/2015 which the International Olive Council (IOC) adopted on 26 November 2015, IOC recognition is awarded, subject to annual review, to laboratories which are approved by the competent authority of their country as a laboratory responsible for the official control of virgin olive oils by sensory analysis, and which fulfil the following conditions:

- An application for recognition, transmitted by the competent authority that approved the laboratory for the sensory testing of virgin olive oils, has to be submitted to the IOC Executive Secretariat.
- The application for recognition has to be accompanied by proof that the laboratory holds accreditation for the sensory analysis of virgin olive oils according to the method adopted by the Council.
